Paramedic Tattoo *set* Aesthetic Camouflage

The Precision that Transforms Stories

Developed by the **Amazon group in collaboration with Shâmis for Dermink**, this set of dyes was created especially for camouflaging stretch marks, scars, blemishes and vitiligo.

With **high stability, superior hold and adjustable shades** for different skin types, this line allows professionals to **take their results** to the highest level of naturalness.

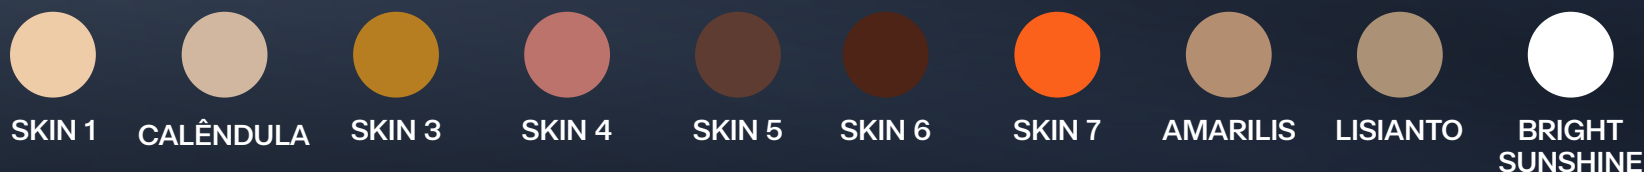

PAINT TECHNOLOGY FOR A NEW SKIN

Each shade has been carefully formulated to blend into the skin with smooth transitions and no grayish or reddish cast over time. Ideal for rebuilding skin harmony, promoting more uniformity and self-esteem for those seeking to restore their skin.

EXPERIENCE THAT MAKES A DIFFERENCE

Paramedic camouflage expert Shâmis brought his award-winning expertise to this set, creating a selection of paints that allow for precise, realistic and safe applications.

Set with 10 EXCLUSIVE colors **Paramedical Line**

Paramedic Tattoo *set* Aesthetic Camouflage

SKIN 1

Description:

Ideal for color combinations in phototypes 1, 2 and 3.

How to use:

Used for toning and lightening scars, it has high coverage and a neutral tone.

It should be combined with other colors, and can generate golden or pink undertones as needed.

BRIGHT SUNSHINE

Description:

Recommended for whitening all phototypes, Bright Sunshine is the white you have always wanted.

Stable and safe, produced from Rutile, it is the ultimate white for you to work safely without fear of "yellowing".

How to use:

In camouflage, it should ALWAYS be used with other colors.

In areola reconstructions, it is essential to create points of light that guarantee more realistic results.

Paramedic Tattoo*set* Realistic Areola

Realism that Restores Self-Esteem

Repairing and reconstructing areolas requires meticulous work, where every detail makes a difference.

With this in mind, **Amazon and professional Shâmis developed a set of dyes for Dermink** combining natural tones and chromatic stability to create hyper-realistic, three dimensional areolas in perfect harmony with the skin.

PERFECTION IS IN THE DETAILS

This set is ideal for professionals who wish to offer **authentic reconstructions**, with soft gradients and adaptation to different skin tones.

The dyes were developed for long-lasting fixation and without color changes, ensuring a natural and reliable result.

EXPERTISE THAT INSPIRES CONFIDENCE

Recognized worldwide for his realistic areola technique, Shâmis shares his experience in this **set of inks developed for precise procedures and exceptional results.**
